

Paul Chiocco, Board Member, Chair of Sponsorship

Vice President of Development, Pacific Science Center

Paul has spent his entire career in the non-profit field, moving from direct service to administrative and leadership roles.

His passion for mission-based work is supplemented by 25 years of experience and a masters' degree in Not-for-Profit Leadership from Seattle University. Prior to his role at the Pacific Science Center, Paul was in leadership at Mercy Housing Northwest and United Way of King County. Paul's and his family are happy to help raise funds for some of their favorite causes, including Amara and YouthCare.

Throughout his career, Paul has successfully balanced the daily tasks of administration and fundraising with a long-term perspective. He brings his skills as a relationship builder, trainer, and analytical thinker to benefit his organization's mission and goals. As much as he brings to the table, Paul never stops learning and evolving his approach.

Paul says he is happy to join the board of AFP Advancement Northwest and contribute what I can to the success of his fellow fundraisers and our industry.
